

Workshops and Special Activities

Environmental Education Forum. Monday 12th, 4:00 PM (16:00). Post Theatre.

Do you want to know more about the Great Salt Lake? Would you like to see what other educators have done pertaining to the Great Salt Lake? If so, please join us for the Environmental Education in Saline Systems/Watersheds Roundtable Discussion. 1/2 day registration for educators is only \$35. Registration in advance is preferable, but you may register at the conference desk in the Officers Club.

Research Agendas for Saline Lakes - Lessons learned on how to plan and prioritize technical issues and research needs.

Thursday Lunch Discussion; Organizer: Dr. Genevieve Atwood, University of Utah, genevieveatwood@comcast.net

In many areas of the world, management of salt lakes is coming to the forefront, yet research on these systems often lags behind that of freshwater lakes. During this working lunch we will focus on prioritizing research needs for complex, closed basin ecosystems. Researchers and managers dealing with salt lakes are encouraged to come and share their experiences. You may want to reserve a box lunch for this activity.

An Itinerant Photographer of the Wetlands.

Friday 16th Lunch, Post Theatre.

A presentation by Rosalie Winard of her wonderful bird and landscape images. From the wetlands in California to the prairies of Nebraska, Winard uses her thirty years of experience observing these winged creatures along with her mastery of photography to illuminate the importance of avian and wetland conservation.
